

## The Undelete Trick

If you accidentally delete something in your course, you can try to restore it by using the undelete trick.

- Simply look to the URL bar on your browser, locate the 6 or 7 digit number after “courses,” delete everything after that, and type */undelete*

- You will then see a list of the 25 most recently deleted items. Clicking an item's corresponding *Restore* button

- The list is limited to the last 25 deleted items.
